Everything, Handle with care

Warehousing

Storage is a very important stage where you need to keep your goods safe and hygienic till your shipment gets distributed.

We offer you our import and export Cold and Dry storage, DC, and supply chain services as a whole package along with an inventory management system that helps you watch your supply chain networks from your digital screens.

We have 67000 sqm of warehousing area which 47000Sqm for Cold Chain, 10,000 sqm for Dry Chain, and 10000 sqm for distribution center areas with 24x7 HTIE, well equipped with advanced inventory management and technology.

Located at Long An WH26000sqmt – 26km to Catlaiport and 5km to Hiep Phuoc port, Dong Nai WH 13000sqmt – 31km to Catlai port, Hung yen WH -18000 sqm – 109km to Haiphong port.

We are planning to expand our storage nationwide wide to about 15 key supply chains locations in Vietnam by 2026.

Cold chain storage facilities

Double-deep racking -Stacker Crane ASSY Panel Quadcore- fire retardant FM4882-Blast Reefer system minus 25°.

Dry warehouse facilities

Traditional foreign trade enterprises, cross-border e-commerce and logistics enterprises, and other entities will be encouraged to participate in the construction of international warehouses through a variety of investment and financing methods. Innovation of financial products such as export credit insurance will be strengthened, mature practices will be copied and promoted, and a number of distinctive and representative international warehouses will be cultivated.

Safety Systems

*Full fire system with backup water supply-
sprinklers-hydrants-hose reels-MyCom compressor-Waterproof*

*LED- Auto Electrical control system-high-speed roller shutters-
Robotic automation- Clark forklift and pallet
truck a few to highlight here for your attention.*

Warehouse Operations System

*Chill/ Frozen cargo IN - Precool Process-
Storage of IQF, Chill and frozen -
Repackaging and Repalletizing - PSI-FG EXIM.*

*Dry cargo IN – Storage – repackaging -
Repackaging and Repalletizing-PSI-FG EXIM
Keeping goods secure and accessible
and performing warehouse audits as needed.*

*A professional Ware House Management System
Application in our integrated facilities.*

*Well-trained staff for the warehouse,
and inventory management.*

*A systematic industrial workflow at
each warehouse location for all kinds of
products, and goods across industries.*

*Setting up bins and other storage spots
in optimal places to minimize the effort
required to move between destinations.*

*Recording all inbound and outbound
shipments and collecting the proper
documentation.*

*Efficient warehousing operations with
affordable costs.*

Inventory received and shipped on time.

*Productive Staff with skill and fingertip
inventory control.*

Sufficient quantities of product on hand.

Storage optimized with Library.

*Equipment and robots used effectively
Distribution Center.*

*Supply chains are being fulfilled orders faster
than ever before, and warehousing logistics
play a direct role in making that more smooth
flow.*

*A distribution center will be located nearby
the retail or wholesale point.*

*The goods from DC Warehouse with final SKU
admin and move finished goods are through
the supply chain, most inventory is shipped
from a manufacturer, often from overseas,
to a warehouse.*

*Some warehouses are used for longer-term
agreements and short-term and one-time
storage for both exports and imports and
massively in the domestic supply chain to the
markets as a whole.*

*Warehouse operations include turning inventory
over very quickly, but also, continuously picks,
packs, and ships orders to customers.*

*These types of warehousing solutions give you
good visibility and real-time handling of every
action that's happening in the warehouse.*

*A good warehouse man agement system will
even help generate electronic picking lists based
on orders that have inventory stored close to one
another to decrease inefficiencies.*

*Streamlined warehouse logistics however can
improve your bottom line and provide a pro-
fessional customer experience.*

*When it comes to figuring out a picking system
that is right fo you, understanding where your
picking activities are lacking efficiency is a good
first step.*
