SHIZENCOS OUR STORY

- After many years of research, we deeply understand that although Vietnam has abundant natural cosmetic resources, it lacks advanced and breakthrough technology.
- In 2008, Shizencos was established by a team with extensive experience in domestic and international manufacturing. Bringing advanced manufacturing technology from Japan, Korea and Malaysia to Vietnam, our goal is to improve product standards and enhance brand value for partners and customers.
- 2018 marked a breakthrough for Shizencos, becoming one of the leading OEM/ODM manufacturing facilities in Vietnam. Basing on this success, Shizencos is proud to be a manufacturer of high quality products that meet FDA standards in the United States. We aim to export cosmetics and nutritional supplements produced in Vietnam to the world.
- Not satisfied with the achievements, Shizencos constantly strives to become the top choice for our valuable customers. We are committed to becoming the leading, reputable and top quality manufacturing partner in Vietnam.

01

FACIAL CARE

Processing facial care products is one of our core services, providing high quality products with safe and effective natural ingredients. We specialize in manufacturing a variety of product lines such as cleansers, toners, serums, and creams, which help deepcleansing, nourish and moisturize the skin.

Our formulas are carefully researched and suitable for all skin types, from sensitive to oily skin, helping to improve elasticity, brighten skin and anti-aging. We are committed to providing products of superior quality, meeting the diverse needs of the market.

02

HAIR CARE

Hair Care Products

Providing shampoos, conditioners & nourishing serums with natural ingredients, safe for the scalp and hair.

Our products not only restore natural shine but also protect hair from harmful agents, meeting customers' needs for healthy, bouncy hair.

Nourish hair and scalp

Herbal shampoos often contain natural ingredients such as soapberry, basil, and polygonum multiflorum, which help to supplement nutrients to stimulate hair growth, making it thick, healthy, and preventing hair loss.

Cleanse and balance the scalp

Herbal shampoo with gentle natural cleansing ingredients helps remove dirt and excess oil without stripping the scalp of its natural moisture, maintain balance and prevent problems such as dandruff and flaking.

Prevent hair problems

Herbal shampoo has antibacterial & anti-inflammatory properties, helping reduce inflammation & scalp irritation and supporting the treatment of problems such as dandruff, fast scalp or dryness.

06 PERFUME

SHIZENCOS

PERFUME MANUFACTURING SERVICE

- We provide high-quality perfume manufacturing services, meeting the creative and personalization needs of each brand.
- With a diverse range of formulas, our perfumes are developed according to safety standards, ensuring long-lasting fragrance and good diffusion.

INGREDIENTS AND TECHNOLOGY

- Our perfumes are crafted from delicate fragrances and natural ingredients.
- We use advanced formulation technology to create unique, luxurious scents, ranging from light & subtle to rich and intense, providing maximum satisfaction to users.

COLLABORATION PROCESS

- From the initial idea to the finished product, we offer comprehensive support throughout the process, from research and testing to packaging.
- Our professional team will always accompany you, providing effective solutions to make your perfume product stand out in the market.

SHIZENCOS

PERFUMIE

Cosmetic

Perfume

- Concentration of Essential Oils: 20-30% (the highest among perfume types).
- Longevity: 8-12 hours or more.
- Characteristics: Rich, complex scent, suitable for special occasions or evening wear.
- Price: The highest due to the high concentration of essential oils.

EAU de Parfum

- Concentration of Essential Oils: 15-20%.
- Longevity: Good, about 6-8 hours.
- Characteristics: Often used daily or on special occasions.
- Strong scent, but not as intense as Perfume.

EAU de Toilette

- Concentration of Essential Oils: 5-15%.
- Longevity: Average, about 4-6 hours.
- Characteristics: Popular for daytime use or in hot weather.
- Lighter than EDP, generally more affordable.

EAU de Cologne

- Concentration of Essential Oils: 2-4%.
- Longevity: Short, about 2-3 hours.
- Characteristics: Primarily for men, with a fresh citrus scent.
- Lower price, often requires reapplication during the day.

EAU de Fraiche

- Concentration of Essential Oils: 1-3% (the lowest).
- Longevity: Very short, about 1-2 hours.
- Characteristics: Suitable for when a light, fresh scent is needed.
- Mainly composed of water and alcohol, lighter than Eau de Cologne.

Perfume For man.
